

Prepared by Bob Maloney – Town of Castle Rock - Castle Rock, Colorado

I am currently the Superintendent of Parks, Trails and Open Space for the Town of Castle Rock. I have been with the Town of Castle Rock for 13 years. My career with the Town of Castle Rock started during my high school years as a Seasonal Maintenance worker. I graduated from Otero Junior College with an Associates of Arts Degree. In 1997 I was hired as a Maintenance Worker II in the Parks Open Space Division. Since then I have had the opportunity to advance which leads me to today as a Superintendent.

Currently my responsibilities include maintaining athletic fields, open space, park facilities and special events. I also am involved with the Town of Castle Rock Safety Committee and the joint efforts with the Town and Douglas County mosquito control. I feel fortunate to have a job that I look forward to going to each and every day.

In my spare time you will find me spending time with my wife and son and coaching baseball at Douglas County High School.

I am excited to be considered for a position with the CSTMA where I can gain valuable knowledge and share my experiences and ideas. I would like to see the CSTMA continue to be a valuable resource to everyone involved by providing events, seminars and commitment to the industry. We need to make a continued effort in growing our membership so that we have as many knowledgeable voices as possible as every opinion counts. With the current state of the economy we will need to pool all of our resources and be as creative as possible to minimize costs and labor; this can be accomplished through strengthening our network.
